### LexExpress™

If we can't fix your printer problem over the phone...we'll send you a replacement printer by express courier

We are so confident in the quality of our printers, and the expertise of our LexExpress on-line service technicians, that we promise to fix the problem or we'll send you a replacement printer. And this service is not just for the big cities - it's available throughout Australia and New Zealand, even in the outback! This LexExpress warranty is applicable to all Lexmark inkjet printers and personal laser printers. So you'll never need to wait for parts or a service technician again - and you'll never be without a printer! Call 1300 362 192 in Australia or 0800 539 6275 in New Zealand or visit [www.lexmark.com.au](http://www.lexmark.com.au) to find out more.

## Even more ways to print from your digital camera

Print directly from your PictBridge camera or choose which shots you want to print from your memory card using the X3470 scanback proof sheet.

The Lexmark X3470 is an affordable All-In-One that makes photo printing fast and easy. The memory card slots on the front of the printer let you simply insert your digital camera memory card and start printing! You can also print direct from your PictBridge enabled digital camera using the built-in PictBridge interface.

The easy-to-use photo menu will guide you through the steps and you can even choose to print a proof sheet.

But the X3470 does much more than just print glossy borderless photos. It is also standalone copier – producing quality borderless copies and a versatile, fully featured flatbed scanner. So now you have everything you need in one affordable package!

### Print

- Up to 17 ppm mono and colour
- Up to 4800 dpi print resolution
- Prints beautiful borderless 4 x 6" prints in around 38 seconds\*
- Prints poster size across up to 4 pages
- PrecisionSense™ automatically senses the paper type
- Accu-Feed™ technology virtually eliminates paper jams
- New Web Toolbar simplifies printing from the internet
- Scanback Proof Sheet allows for easy photo printing

### Copy

- Fast borderless copying
- One touch copying without turning on your computer
- Easy-to-use LCD operator panel
- Removable lid for copying bulky items
- Copy up to 14 cpm mono and 14 cpm colour
- Prints up to 99 copies
- Reduce or enlarge images from 25% to 400%

### Scan

- High quality, 48 bit scanner for scanning existing photos
- Up to 600 x 1200 pixels per inch (ppi) scan resolution
- Flatbed scanner easily handles thick books, reports, brochures and documents
- Optical Character Recognition (OCR) software for converting scanned documents into editable files
- PhotoEditing software for scanning, editing, printing and managing images.

## Printer Features

Versatile flatbed for scanning at the touch of a button, print directly or save to your computer

LCD display guides you through the different functions

Create colour copies without even turning on your computer

Print photos directly from your digital camera using the PictBridge port or memory card slots

Use Lexmark's exclusive Fast Pics software to select your images, your paper size and then print

## It's the complete photo printing package and we've got the software to prove it!

The Lexmark X3470 uses world-class software that guides you through every task. Lexmark Software allows you to easily manage photos, attach to email and scan directly to PDF format for web publishing.

Simple, clever, friendly. Imaging Studio Software really is user-friendly with simple icons, big buttons and clear, descriptive language. Fast Pics Software gives simple on-screen directions for printing digital photos while photo-management is made easy with Memory Card Manager Software.

Lexmark continues to uncomplicate with Optical Scan Recognition Software allowing you to scan text into a usable – editable – format. With Advanced Photo Software you'll be able to get creative by adjusting, cropping, removing red-eye and adding text to images.

The Lexmark X3470 is loaded with great, easy-to-use software along with a new Web Toolbar that will help you navigate the system. With the X3470, you've got the software to take control.
